	APPROVAL OF STATE ENGINEER
the no well and mean tion tail Statuse pub	This permit to change the point of diversion and place of use of the waters of underground source as heretofore granted under Permit 45858 is issued subject to terms and conditions imposed in said Permit 45858 and with the understanding the other rights on the source will be affected by the change proposed herein. The 1 shall be equipped with a 2-inch opening and a totalizing meter must be install maintained in the discharge pipeline near the point of diversion and accurate surements must be kept of water placed to beneficial use. The totalizing meter to be installed before any use of the water begins or before the proof of complem of work is filed. If the well is flowing, a valve must be installed and mainned to prevent waste. This source is located within an area designated by the te Engineer pursuant to NRS 534.030. The State retains the right to regulate the of the water herein granted at any and all times. This Permit does not extend the permittee the right of ingress and egress on lic, private or corporate lands. The total combined duty of water under Permits 50520 and 50521 shall not exceeds 6.66 acre-feet annually. The issuance of this permit does not waive the requirements that the permit der obtain other permits from State, Federal and local agencies. If this permit is cancelled or withdrawn, the water reverts to the source and the base right.
